

# ILCE-7/B

# α7 (Alpha 7) Interchangeable Lens Camera

Compressed Model Name: ILCE7/B

**UPC:** 027242874794

First Customer Ship: MISSING<cc>

**SRP:** 0.0 **SPPG:** 0.0 **SURE:** 0.0

## **Bullets**

#### **Short bullets**

- World's lightest interchangeable lens full-frame camera
- Full Frame 24.3 MP resolution with 14-bit RAW recording
- Fast Hybrid AF w/ phase-detection for DSLR-like speed
- Fast Intelligent AF optimized for full-frame sensor
- Fully compatible w/ Sony's E-mount and new full-frame lenses
- Direct access interface for fast, natural shooting control
- High contrast 2.4-million dot OLED EVF for eye-level framing
- Simple connectivity to smartphones via Wi-Fi® or NFC
- PC control w/ remote video capture control
- Full HD movie at 24p/60i/60p w/uncompressed HDMI output

# **Marketing**

#### 10-Word Ad Copy

Introducing the no-compromise full frame that's so small, you'll take it everywhere.

#### 25-Word Ad Copy

Introducing the no-compromise full frame that's so small, you'll take it everywhere. Interchangeable lenses. 24.3 MP. OLED viewfinder—all in a compact body that's ready to go.

#### 50-Word Ad Copy

No other full frame, interchangeable-lens camera is this light or this portable. 24.3 MP of rich detail. A true-to-life 2.4 million dot OLED viewfinder. Wi-Fi sharing and an expandable shoe system. It's all the full-frame performance you ever wanted in a compact size that will change your perspective entirely.

## **Key Features**

#### World's smallest lightest interchangeable lens full-frame camera

Sony's Exmor image sensor takes full advantage of the Full-frame format, but in a camera body less than half the size and weight of a full-frame DSLR.

#### Full Frame 24.3 MP resolution with 14-bit RAW output

A whole new world of high-quality images are realized through the 24.3 MP effective 35 mm full-frame sensor, a normal sensor range of ISO 100 – 25600, and a sophisticated balance of high resolving power, gradation and low noise. The  $BIONZ^{\circ}$  X image processor enables up to 5 fps high-speed continuous shooting and 14-bit RAW image data recording.

# Fast Hybrid AF w/ phase-detection for DSLR-like focusing speed

Enhanced Fast Hybrid auto focus combines speedy phase-detection AF with highly accurate contrast-detection AF, which has been accelerated through a new Spatial Object Detection algorithm, to achieve among the fastest autofocusing performance of any full-frame camera. First, phase-detection AF with 117 densely placed phase-detection AF points<sup>2</sup> swiftly and efficiently moves the lens to bring the subject nearly into focus. Then contrast-detection AF with wide AF coverage fine-tunes the focusing in the blink of an eye.

## Fast Intelligent AF for responsive, accurate, and greater operability with full frame sensor

The high-speed image processing engine and improved algorithms combine with optimized image sensor read-out speed to achieve ultra high-speed AF despite the use of a full-frame sensor.

## **New Eye AF control**

Even when capturing a subject partially turned away from the camera with a shallow depth of field, the face will be sharply focused thanks to extremely accurate eye detection that can prioritize a single pupil. A green frame appears over the prioritized eye when focus has been achieved for easy confirmation. Eye AF can be used when the function is assigned to a customizable button, allowing users to instantly activate it depending on the scene.

## Fully compatible with Sony's E-mount lens system and new full-frame lenses

To take advantage of the lightweight on-the-go body, the  $\alpha 7$  is fully compatible with Sony's E-mount lens system and expanded line of E-mount compact and lightweight full-frame lenses from Carl Zeiss and Sony's premier G-series.

## Direct access interface for fast, intuitive shooting control

Quick Navi Pro displays all major shooting options on the LCD screen so you can rapidly confirm settings and make adjustments as desired without searching through dedicated menus. When fleeting shooting opportunities arise, you'll be able to respond swiftly with just the right settings.

# High contrast 2.4M dot OLED EVF for eye-level framing

View every scene in rich detail with the XGA OLED Tru-Finder, which features OLED improvements and the same 3-lens optical system used in the flagship  $\alpha$ 99. The viewfinder faithfully displays what will appear in your recording, including the effects of your camera settings, so you can accurately monitor the results. You'll enjoy rich tonal gradations and 3 times the contrast of the  $\alpha$ 99. High-end features like 100% frame coverage and a wide viewing angle are also provided.

#### 3.0" 1.23M dot LCD tilts for high and low angle framing

The tiltable 3.0" (1,229k dots) Xtra Fine™ LCD Display makes it easy to photograph over crowds or low to capture pets eye to eye by swinging up approx. 84° and down approx. 45°. Easily scroll through menus and preview life thanks to WhiteMagic™ technology that dramatically increases visibility in bright daylight. The large display delivers brilliant-quality still images and movies while enabling easy focusing operation.

## Simple connectivity to smartphones via Wi-Fi® or NFC

Connectivity with smartphones for One-touch sharing/One-touch remote has been simplified with Wi-Fi®/NFC control. In addition to Wi-Fi support for connecting to smartphones, the  $\alpha 7$  also supports NFC (near field communication) providing "one touch connection" convenience when transferring images to Android™ smartphones and tablets. Users need only touch devices to connect; no complex set-up is required. Moreover, when using Smart Remote Control — a feature that allows shutter release to be controlled by a smartphone — connection to the smartphone can be established by simply touching compatible devices.

### PC control w/ remote video capture control

Remote Camera Control allows you to control your  $\alpha$ 7 from your PC using a USB cable. Feature control has also been updated to include video capture control.

## 14-bit RAW output for rich tonal gradation

14-bit RAW image data of extremely high quality is outputted by the  $\alpha 7$ . This data fully preserves the rich detail generated by the image sensor during the 14-bit A/D conversion process. When developed with Sony's Image Data Converter RAW development software, these images deliver the superb photographic expression and rich gradation that only 14-bit data can offer.

#### New BIONZ X image processing engine

Sony proudly introduces the new BIONZ X image processing engine, which faithfully reproduces textures and details in real time, as seen by the naked eye, via extra high-speed processing capabilities. Together with front-end LSI (large scale integration) that accelerates processing in the earliest stages, it enables more natural details, more realistic images, richer tonal gradations and lower noise whether you shoot still images or movies.

#### Full HD movie at 24p/60i/60p w/uncompressed HDMI output

Capture Full 1920 x 1080 HD uncompressed clean-screen video files to external recording devices via an HDMI® connection in 60p and 60i frame-rates. Selectable in-camera AVCHD™ codec frames rates include super-smooth 60p, standard 60i or cinematic 24p. MP4 codec is also available for smaller files for easier upload to the web.

#### Up to 5 fps shooting to capture the decisive moment

When your subject is moving fast, you can capture the decisive moment with clarity and precision by shooting at speeds up to 5 frames per second. New faster, more accurate AF tracking, made possible by Fast Hybrid AF, uses powerful predictive algorithms and subject recognition technology to track every move with greater speed and precision.

#### Multi-interface Shoe for flash and microphone flexibility

Unlike conventional cameras, the  $\alpha$ 7 features the advanced Multi-Interface Shoe that dramatically expands compatibility with Sony digital imaging accessories, thus raising the potential for photo/movie shooting.

#### 4K Still image output by HDMI8 or WiFI for viewing on 4K TVs

Enjoy Ultra High Definition slide shows directly from the camera to a compatible 4K television. The  $\alpha$ 7 converts images for optimized 4K image size playback (8MP). Enjoy expressive rich colors and amazing detail like never before. Images can be viewed via an optional HDMI or WiFi.

## TRILUMINOUS color outputs wider color gamut to compatible devices

TRILUMINOS Color technology, allows you to experience photos and movies in rich, natural colors on any TV equipped with a TRILUMINOS Display. The expanded color gamut immerses you in those unforgettably colorful moments, from the complex shades in a shimmering blue sky to the delicate skin in a baby's face.

# PlayMemories™ Camera Apps allows feature upgrades

Personalize your camera by adding new features of your choice with PlayMemories Camera Apps. Find apps to fit your shooting style from portraits, detailed close-ups, sports, time lapse, motion shot and much more. Use apps that shoot, share and save photos using Wi-Fi that make it easy to control and view your camera from smartphone, and post photos directly to Facebook or backup images to the cloud without connecting to a computer.<sup>11</sup>

#### **Image Data Converter**

Advanced features enable manipulation, conversion and management of full-resolution RAW images. You can expertly adjust exposure, white balance, tonal curves, saturation, contrast, hue and sharpness — as well as apply DRO and vignetting compensation. Bundled Remote Camera Control software also lets you remotely activate and deactivate still/movie recording and control various camera settings from a PC.

#### **Vertical Grip Capable**

Enjoy long hours of comfortable operation in the vertical orientation with this sure vertical grip, which can hold two batteries for longer shooting and features dust and moisture protection.

#### **Mount Adaptors**

Both of these 35mm full-frame compatible adaptors let you mount the  $\alpha$ 7R with any A-mount lens. The LA-EA4 additionally features a built-in AF motor, aperture-drive mechanism and Translucent Mirror Technology to enable continuous phase-detection AF. Both adaptors also feature a tripod hole that allows mounting of a tripod to support large A-mount lenses.

## **Specifications**

Camera		
Lens Compatibility	Sony E-mount Full Frame, operation with Minolta/Konica Minolta Maxxum A-mount lenses confirmed via optional LA-EA3/LA-EA4 adaptor	
Camera Type	Interchangeable Lens Digital SLR camera	
Lens Mount Type	Sony E-mount Full Frame	
Imaging Sensor		
Imaging Sensor	Exmor CMOS sensor (35.8 x 23.9mm)	
Processor	BIONZ® X image processor	
Anti Dust	Charge protection coating on optical filter and ultrasonic vibration mechanism	
Pixel Gross	24.7 Megapixels (approx.)	
Effective Picture Resolution	24.3 Megapixels (approx.)	
Color Filter System	RGB primary color filters	

Recording				
Media Type	Memory Stick PRO Duo, Memory Stick PRO-HG Duo, Memory Stick XC-HG Duo, SD memory card, SDHC memory card (UHS-I compliant), SDXC memory card (UHS-I compliant)			
Color Space	Still:  sRGB standard (with sYCC gamut) and Adobe RGB standard compatible with  TRILUMINOS™ Color  Movie:

Drive System				
Continuous Shooting Speed	Continuous shooting: Max. 2.5fps, Speed Priority Continuous shooting: Max. 5.0fps			
Drive Mode	Single shooting, Continuous shooting, Speed Priority Continuous shooting, Self-timer (10/2 sec delay selectable), Self-timer (Cont.) (10 sec. delay; 3/5 exposures selectable), Bracketing (Cont., Single, White Balance, DRO)			
Self-timer	2-sec. or 10-sec. delay,			
Shutter Speeds	1/8000 to 30 seconds, bulb			
Shutter Type	Electronically-controlled, vertical-traverse, focal-plane shutter			
Flash				
Flash Bracketing	With optional external flash: 1/3, 1/2, 2/3, 1, 2, 3 EV steps, 3/5 frames (1.0/2.0/3.0 EV: only 3 frames) selectable			
Flash Compensation	With optional external flash: ±3.0 EV (switchable between 1/3 and 1/2 EV steps)			
Flash Coverage	16 mm (focal length printed on lens body)			
Flash Metering System	Pre-flash TTL			
Flash Modes	With optional external flash: Flash off, Auto flash, Fill-flash, Rear Sync., Slow Sync., Red-eye reduction (On/Off selectable), Hi-speed sync, Wireless			
Flash Type	Optional external flash			
Convenience Features				
Self Timer	Yes			
Red-Eye Reduction	Yes			
Erase/Protect	Yes			
Media/Battery Indicator	Yes			
Power Save Mode	Yes			
Video Playback Options	Forward/Rewind (Movie)			
Multiple Language Display	Yes			
Advanced Features				
Face Detection	On, Off, Face Registration, Face Selection; maximum eight faces detected			
Smile Shutter™ technology	Smile shutter (selectable from 3 steps)			
Image Stabilization	Lens-based (where applicable)			
Intelligent Auto	Yes			
Superior Auto	Yes			
Tracking Focus	Yes			
Anti Motion Blur	Yes			
Auto High Dynamic Range	Yes, (Auto Exposure Difference, Exposure difference Level (1-6 EV at 1.0 EV step), off)			
Priority Setting (for Face Detection)	Yes (eight faces max)			
Shooting Tips	Yes			
Sweep Panorama	Horizontal (Wide/Standard), Vertical (Wide/Standard)			
Interface				
Headphone Jack	Yes			
Microphone Input	Yes			
Remote Commander	Yes, via optional RM-VPR1			
Accessory Shoe	Yes, via Multi Interface Shoe			
PictBridge Compatible	Yes			
A/V Remote Terminal	Yes, via Multi Terminal interface			

BRAVIA® Sync™	Yes, via HDMI® with compatible BRAVIA HDTV (link menu)			
DC IN	Yes via optional AC-PW20AM (sold separately)			
HD Output	HDMI® Type D micro connector			
Memory Card Slot	Memory Stick PRO Duo, Memory Stick PRO-HG Duo, Memory Stick XC-HG Duo, SD memory card, SDHC memory card (UHS-I compliant), SDXC memory card (UHS-I compliant)			
NFC	Yes (NFC Forum Type 3 Tag compatible, One-touch remote, One-touch sharing)			
PhotoTV HD	Yes, with BRAVIA Sync enabled HDTV and HDMI® cable			
Tripod Mount	Yes, 1/4" (20 thread count)			
USB Port(s)	USB 2.0 Hi-speed (mass-storage, MTP)			
Weights and Measurements				
Dimensions (Approx.)	Approx. $5 \times 3$ -3/4 $\times$ 1-15/16" (126.9 $\times$ 94.4 $\times$ 48.2 mm) (W/H/D) excluding protrusions			
Weight (Approx.)	With battery and Memory Stick PRO Duo Approx. 1 lb. 0.7 oz. (474 g)			
Weight(Approx) (Main unit only)	Approx. 14.7 oz. (416 g)			
Power				
Battery Type	InfoLITHIUM® NP-FW50 (7.2V)			
Battery Capacity	1080 mAh			
Number of Still Images	Approx. 340 images with LCD monitor (CIPA standard)			
Power Requirements	One rechargeable battery pack (NP-FW50)			
Software				
Supplied Software	Supplied Software: PlayMemories Home, Image Data Converter Version 4			
Operating System Compatibility	Image Data Converter 4.0: Microsoft Windows® Vista® SP2, Windows® 7 SP1, Windows® 8 (Pentium 4 or faster) Mac OS X (10.6-10.8) (Intel Core Solo/Core Duo/Core 2 Duo or faster)			
	PlayMemories Home: Microsoft Windows® Vista® SP2, Windows® 7 SP1, Windows® 8 (Pentium III 800 MHz or faster; for playing/editing HD movies: Intel Core Duo 1.66 GHz or faster/Intel Core 2 Duo 1.66 GHz or faster, Intel Core 2 Duo 2.26 GHz or faster (AVC HD (FX/FH)) Mac OS X (10.6-10.8) (Intel Core Solo/Core Duo/Core 2 Duo or faster)			
Service and Warranty Information				
Limited Warranty Term	1 Year Parts Labor			
Accessories				
Supplied Accessories	Lens cap Rechargeable battery (NP-FW50) AC adaptor (AC-UB10) Shoulder strap Body cap Micro USB cable
